# Wink...

"Wink is a Tutorial and Presentation creation software, primarily aimed at creating tutorials on how to use software. Using Wink you can capture screenshots, add explanations boxes, buttons, titles etc and generate a highly effective tutorial for your users."

## Easy Customization

Add audio to frames

Add custom images

Add shapes

Add text boxes

Add buttons for manual advancing

Add "go to frame" buttons to allow users to repeat instructions.

Additional options for customizing text boxes, shapes & images.

Allows you to determine timing per frame.

## Recording Options

Recording is controlled using keyboard commands.

| | |
|---|---|
| To take a screen snapshot - | Pause |
| To start/stop timed captures - | Shift + Pause |
| To start/stop input-driven captures - | Alt + Pause |

**Pause:**
take a specific one frame screen capture.

**Shift & Pause:**
a continuous stream of screen captures at a default rate of 4 frames a second

**Alt & Pause:**
automatically captures any mouse clicks, keyboard presses. Records more details then single frame captures and less extraneous frames, cutting down editing time and file sizes.

## View Wink Tutorial @ www.olupus.com/wink

Take a set by step tutorial on using Wink and create a short, simple wink presentation at your own pace.

(Note: due to variations in monitor size and resolution, you may need to scroll up and down to see all aspects of the tutorial. )

## Tutorial Tips:

- **Planning**
  Use "storyboarding" and graphic outlines as useful tools for planning tutorials.
- **Currency**
  Keep tutorials current. Update as information and resources change and evolve.
- **Feedback:**
  Have a novice user review your tutorial to ensure ease of use and to ensure all tasks/ steps are clearly defined in the tutorial.
