Better?

- A site that noticeably includes librarian suggestions?
- A site that noticeably includes peer recommendations?
- A site that easily makes resources available
 - based on what it knows about you?
 - based on what you've explicitly saved?
- A site that makes resource recommendations based on what courses you are taking or teaching?
 - And knows what courses you are associated with?

What next?

- A site that is:
 - Contextual
 - Personalized
 - Customizable
 - Portable
 - Active
