Social Media User/Online Student Comparison

**Similarities**
- Female
- 29 or younger
- Frequent social media visitors
- Avid news followers

**Differences**
- Lack of “diversity”
- Disengagement
- Mindset believing in fixed rather than flexible abilities
Social Media Use Before LIB 290

Male
- Facebook: 1
- Twitter: 3
- Pinterest: 0
- Tumblr: 0
- Instagram: 0
- LinkedIn: 0
- Wikipedia: 1
- YouTube: 3
- Other: 3

Female
- Facebook: 11
- Twitter: 7
- Pinterest: 7
- Tumblr: 3
- Instagram: 4
- LinkedIn: 0
- Wikipedia: 3
- YouTube: 13
- Other: 0
Tools We Taught Students

- Twitter
- Pinterest
- Tumblr
- Instagram
- Evernote, Google Tools
- Zotero, Mendeley, Diigo, Delicious
- GoodReads, LibraryThing

Tools Students Taught Us

- Vine
- Blauk
- Snapchat
- Pheed
- Infographics

Social Media Tools in LIB 290

- Tools/ROI Tracking
- Social Bookmarking
- URL Shorteners
- Social Q&A
- Social Search
- Social Couponing
- Podcast
- Mobile/LBS
- Video

WEB 2.0: SOCIAL MEDIA AND GLOBAL CITIZENSHIP

Research the following topic, evaluate the scenario, and propose the best solution for Lane Rasberry.

Scenario:
Lane Rasberry is a Wikipedian who edits Wikipedia entries about global health. His mission is to provide accurate information about HIV and AIDS to people in India who do not have access to printed materials. Please review his Prevention of HIV/AIDS page.

Assessment:
In one paragraph, individually report whether or not Lane’s Prevention of HIV/AIDS page would actually help people in India prevent HIV/AIDS. Who are the people in India most at risk? Locate one online resource on HIV/AIDS that you believe would be more appropriate for the population in need, and one professional in India who is an HIV/AIDS specialist. (be sure to cite sources in APA format)

Solution to Real World Problem:
Compare your report with those of your group. Based on your findings, what advice and social media strategies would you give Lane in order to improve the promotion of HIV/AIDS education in India? Based on your research and assessment of the situation, please propose in two paragraphs 1) a solution to the Lane’s problem and 2) how would you approach the situation if you needed to use Web 2.0 tools for education in another country, with people from another culture. (be sure to cite sources in APA format)
ONLINE SEARCHING: FINDING AND SHARING RESOURCES

Research the following topic, evaluate the scenario, and propose the best solution for this group:

**Ping Lew:** Taking course from Malaysia; English is second language, tech savvy.

**David S.:** Taking course in St. Cloud; Foodie blogger.

**Anne Gomez:** Taking course from California, only uses Smartphone for coursework.

This group, taking an online course, is working on a research project. Their research topic is “The effects of American popular culture on global eating habits”. Students must use the Miller Center Library website, Google, Pinterest, and Twitter to locate scholarly journal articles and statistics on the topic. Group members must communicate with each other about their findings, and compile findings in one location.

**Assessment:**

Prior to working with your group, individually complete this chart:

<table>
<thead>
<tr>
<th>RESOURCE</th>
<th>Location to find scholarly journal articles/statistics</th>
<th>Keywords (or hashtags) used</th>
<th>Was strategy successful? Why/why not?</th>
</tr>
</thead>
<tbody>
<tr>
<td>Library St. Cloud State University</td>
<td></td>
<td></td>
<td></td>
</tr>
<tr>
<td>Google</td>
<td></td>
<td></td>
<td></td>
</tr>
<tr>
<td>Pinterest</td>
<td></td>
<td></td>
<td></td>
</tr>
</tbody>
</table>

**Solution to Real World Problem:**

Based on your research experience on the topic "The effects of American popular culture on global eating habits", describe in 1-2 paragraphs how you would advise the online student group on how to communicate with one another, how to break up research tasks, how to conduct effective searches for scholarly journal articles and statistics from each resource, and how to compile findings.

With group members, compare your search strategies for each resource listed above, and success in locating scholarly journal articles and statistics from each. Describe in 1-2 paragraphs the common successes and challenges that you had in locating scholarly journal articles and statistics for each resource.
• What work do you currently do with Millennials or younger generations? Do you work with a specific population?

• How do you currently observe these groups using social media? What tools do they use, and for what purposes?

• Do you notice any cultural differences in how your generation OR the younger generation use media?

• How do you currently reach out to the younger generations through social media? How do you encourage them to use a particular media?

• What have been your successes, challenges, or fears in regard to youth social media use? What have you seen youth achieve with social media? Who are their social media mentors and role models?
