Digitizing the Past to Preserve the Future
Our process and outcome in deciding on:

• Project management
• What to digitize
• Small projects and larger projects
• Equipment selection
• Our software choices and hosting options
• How to publicize our collections
• What went well, what didn't go so well
• Where are we going from here
Project Management

Why?

What is the purpose of digitization?

What outcome do we want to see?
What?

What do we have that can be digitized?

What has already been digitized?
The following titles are links to full-text web pages. These materials are also available from the library in book format.

How?

In house digitizing?
Send out to vendor?
Do both?
Where?

How do we get the digitized information to the public?

Who will host?

What platform will we use?
