Form Follows Function

Function comes first. Then the fancy stuff.

You see,

ALL FONT S HAVE A PERSONALITY & A PURPOSE
TIMES NEW ROMAN IS A SERIOUS, FORMAL FONT. YOU SHOULDN'T USE IT FOR YOUR 5 YEAR OLD'S BOUNCY CASTLE BIRTHDAY PARTY INVITES.

Dear Jimmy,

You are invited to my super-awesome bouncy castle birthday party fun day, in Times New Roman. Are you excited?

Timmy

COMIC SANS IS A FUN, CHILDMISH, INFORMAL FONT. YOU SHOULDN'T USE IT FOR A SEX OFFENDER NOTICE OR IN A DOCTOR'S DIAGNOSIS LETTER.

Dear James Jamely,

It is with my deepest regret that I write to inform you that our test results indicate that you do indeed have disease $x$.

I, .......................................................

UNDERSTAND THAT MY CHOICE OF FONT HAS THE
POWER TO SUBCONSCIOUSLY & INCORRECTLY SET
THE TONE FOR A PIECE OF PRINTED MATERIAL, AND
AS A RESULT PROMISE TO SERIOUSLY CONSIDER
WHETHER COMIC SANS IS AN APPROPRIATE FONT
CHOICE BEFORE USING IT IN ANY PRINTED WORK IN
THE FUTURE.

About Upper Case and Phrasing

It’s harder to read all caps. All the letters are the same height so they’re harder to differentiate from each other and, therefore, to read.

Let’s rephrase that.

narrow fonts can be harder to read

open fonts breathe and are easier to read
A text block is content but it also has shape, texture, weight, and rhythm.

contrast between font and background

BTW, about complementary colors. When they’re the same value, they vibrate.

Design: Keep it Simple
Message: Make it clear

Less really is more.
Don’t be a clutterer.

You really, really... REALLY do not need to include all the information you can think of. Really.

Accuracy does not equal clarity.
Clarity is at least as important as accuracy. Sometimes more.
