Planning guidelines

- Keep it short
- Be aware of sound quality
- Consider a tag line or graphic
Recording guidelines

Make sure your video orientation is horizontal not vertical

Leave “dead air” at the beginning and end of each clip

Start a new clip for each element

Consider lighting
Trent’s Video

Be skeptical.
Upload clips
Editing guidelines

- Allow time for clip processing by YouTube
- Use splicing and transitions to get rid of dead air
- Caption your videos!
- Use text to label sections or emphasize what you are saying
Create subtitles and closed captions
Brainstorm ideas

Think individually about what you might want to do - 1 minute

Form video production teams and share ideas - 3 minutes

Selected teams will report ideas
Make videos!

Plan your recording/write a script in your production teams - 10 minutes

Film 1-2 minutes of footage- 10 minutes

Upload clips to YouTube

-When uploading, set your clips to “Unlisted” or “Private”

-If you need help with this, come back to the room and we can show you how to do it

Come back to edit in 20 minutes
When you’re ready, add your video to our playlist

A few other apps you might want to try...

YouTube Capture (to edit/upload to YouTube from your iPhone)

VivoVideo (for Android)

FxGuru (fun effects - Breaking News! etc.)
thanks!
